unprecedented share when the distribution commences.

As far as the exchange is concerned everything seems to be favorable for France, according to Boure operators, who are pointing to the fact that many heavy orders for francs continue to arrive from the United States. Apparently due to recognition on the part of American bankers, France intends to insist henceforth for payments from Germany, and it is significant that while the value of the franc is rising the mark is again showing a downward trend, although Chancellor Wirth's financial scheme is held by Berlin as being the first step up the economic ladder.

Russian securities and sugar stocks suffered a relapse last week, the former in some cases falling far below the November quotations, while the movement to bring in unimportant securities into the Bourse lists apparently has ceased owing to the growing feeling that Russia does not intend to use the Genoa conference as more than a note taking occasion, to be followed by the application of counter measures in Russia with the help of the few neutral nations she is likely to influence in her favor at the council table.

BOSTON, Jan. 29.—Investigation of the elrcumstances through which Martin E. Kern bought from A. Mitchell Palmer, Allen Property Custodian, with the approval of Francis P. Garvan, chief of the Bureau of Criminal Investigation, the Bosch Magneto Company of Springfield, Mass., will begin in the Federal court in Boston to-morrow.

The investigation will include a search into the record of Arthur T. Murray, former Allentown, Pa., garage employe, who, with the approval of Palmer and President Wilson, was appointed as representative of the Government at the Bosch works at Springfield, of which he is now president.

showed an exceptional lack of activity, but did not lose the spirit of optimism which has prevailed since the beginning of the year.

The fact is that the big industrial and financial leaders believe firmly that some way out of the present international affsagreements will be found soon and are only waiting for a signal for the resumption of affairs which withave the desired effect on the markets on both sides of the Atlantic.

This movement of optimism is being strengthened by the attitude of the Bank of France, as well as the big credit institutions, which are spreading the gospel of hopefulness as far as possible and have succeeded in drawing attention to the new issues of the National Credit. which will have no limit and which will bring in more than the 6 per cent. which has been offered to the public hitherto. Although the details are not yet certain, it is already known that some of the provincial banks have offered to take an unprecedented share when the distribution commences.

As far as the exchange is concerned everything seems to be favorable for France, according to Boure operators, who are pointing to the fact that many heavy orders for francs continue to arrive from the United States. prications and importations.

Expect More Liberal Buying.

Many buyers coming into the local market this week after inventory takings are expected to know definitely the extent of their needs and more buying and less shopping is looked to develop as a result. Furnishing buyers will be here in large numbers and immediate delivery business in shirts and underwear. Oils remain resistant, but there were ony a few transfers.

The railroad interests expect an early floating of a loan of probably 100,000,000 francs for the improvement of the Alsace-Lorraine lines, which deteriorated badly during and since the war and now need a complete revision of rolling stock as well as the construction of new tranches connecting with the French internal lines. The discount rate refined unchanged.

Advanced showings indicate that low prices will predominate in furniture sales beginning to-day. Furniture will be the retail field's big feature and feeling that sales will be unusually successful is general. It is pointed out that consumers have been holding off in anticipation of lower prices and renewed building activity has reached the point where consumers actually need furniture for new apartmen's. Shopping will be the rule, however, and keen competition is expected.

# Grass Rugs Receive Attention.

Rug buyers in the market are said to be giving considerable attention to cheaper merchandise, with emphasis on the grass rug, said to be popular with many whose buying power has been reduced and who are looking for something to take the places temporarily of their worn out floor coverings. Although domestic manufacturers report business good, frequent complaint is heard against Japanese importations, which are underselling the American

Plans urging on the Congress need of immediate passage of a tariff measure with the American valuation plan incorporated in it are expected to develop in the meeting of manufacturers, representing all classes of industry in the United States, to be held to-day and to-morrow in Washington under the National Association of Manufacturers' auspices. In urging quick action by the Congress in the enactment of a tariff measure the manufacturers will urge that all ad valorem duties be imposed on a basis of American values instead of on foreign values, as is at present practiced.
